FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

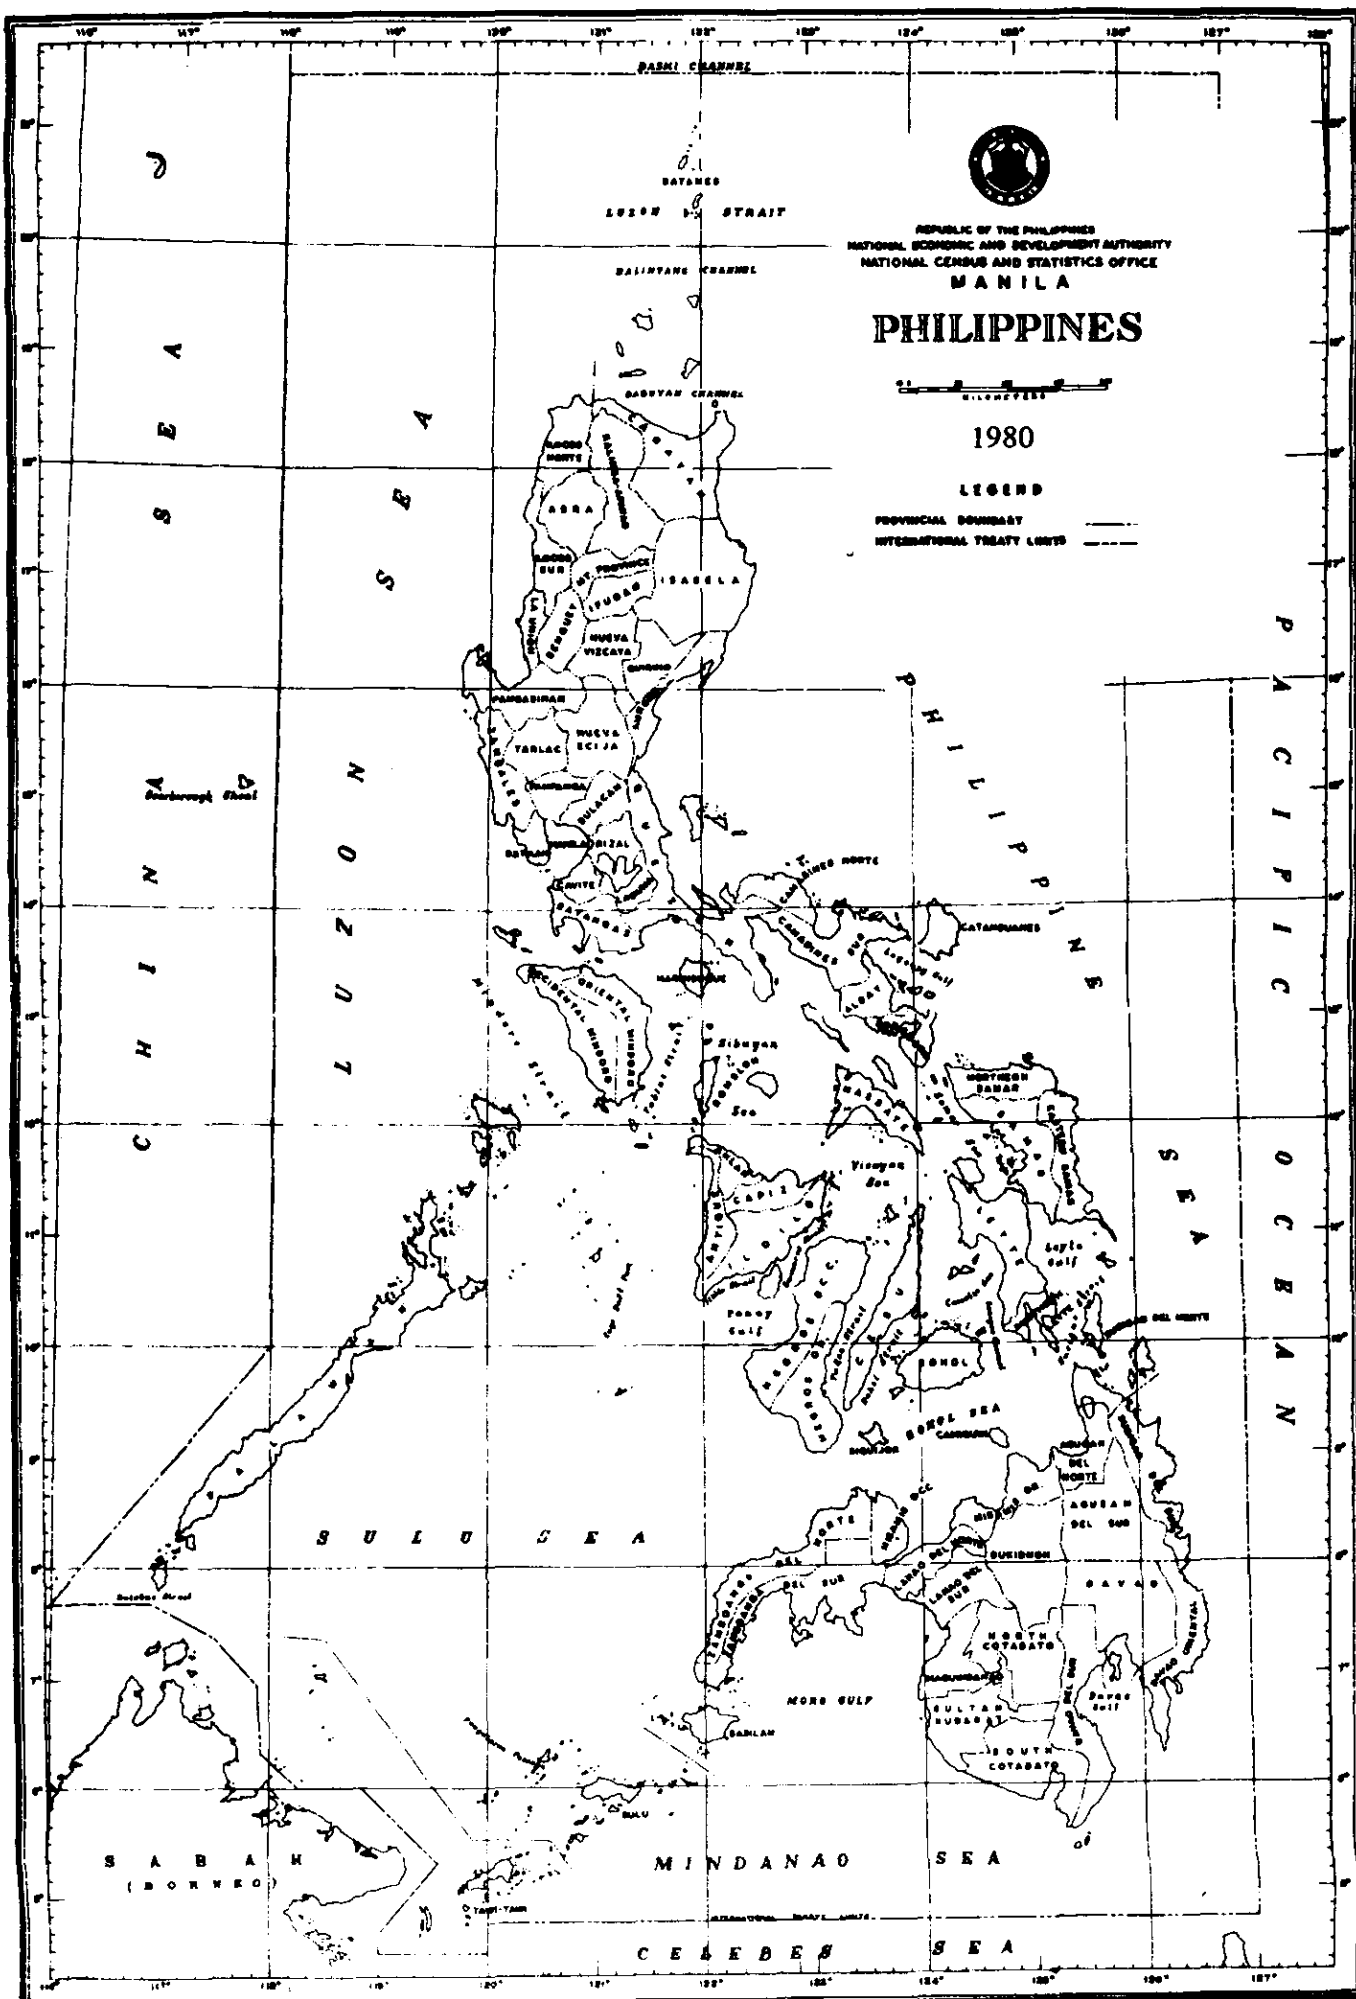

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Manila, Philippines
May 1983

DETAILED TABLES	
POPULATION TABLES	
1. Population Enumerated in Various Censuses: 1903-1980	1
2. Population By Single-Year Age Classification and Sex, Urban-Rural: 1980	2
3. Population By Age Group, Sex and Municipality, Urban-Rural: 1980.	4
4. Population 10 Years Old and Over By Age Group, Sex, Marital Status and Municipality, Urban-Rural: 1980	10
5. Private Household Population 7 Years Old and Over By Highest Grade Completed, Age, Sex and Municipality: 1980	61

6.	Literacy of Private Household Population 10 Years Old and Over By Age Group, Sex and Municipality, Urban-Rural: 1980	109
7.	Language or Dialect Generally Spoken in Private Households By Municipality, Urban-Rural: 1980	123
8.	Private Household Population 15 Years Old and Over By Gainful and Non-Gainful Occupation, Marital Status and Sex, Urban-Rural: 1980.	125
9.	Gainful Workers 15 Years Old and Over of Private Households By Major Occupation Group, Major and Minor Industry Groups and Sex, Urban-Rural: 1980.	127
10.	Present Residence of Private Household Population 5 Years Old and Over By Place of Residence on May 1, 1975, Sex and Municipality, Urban-Rural: 1980.	145

HOUSING TABLES

1.	Number of Households in Occupied Dwelling Units By Type of Building, Type of Occupancy and Municipality, Urban-Rural: 1980	149
2.	Number of Households in Occupied Dwelling Units By Year Built, Construction Materials of Roof and Outer Walls, Urban-Rural: 1980	156
3.	Number of Households in Occupied Dwelling Units By Type of Building, Floor Area and Municipality, Urban-Rural: 1980	158
4.	Number of Households in Owner-Occupied Dwelling Units By Type of Building, Tenure of the Owner-Occupant with Respect to the Land and Municipality, Urban-Rural: 1980	170
5.	Number of Households in Occupied Dwelling Units By Kind of Lighting and Municipality, Urban-Rural: 1980	184
6.	Number of Households in Occupied Dwelling Units By Use and Source of Water Supply and Municipality, Urban-Rural: 1980	186
7.	Number of Households in Occupied Dwelling Units By Type of Toilet Facilities and Municipality, Urban-Rural: 1980.	201
8.	Number of Households in Occupied Dwelling Units By Kind of Cooking Fuel and Municipality, Urban-Rural: 1980	203
9.	Number of Households in Occupied Dwelling Units with Household Appliances By Municipality, Urban-Rural: 1980.	205

E	PH Form 4 -- Collective Household Questionnaire	213

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of *Batas Pambansa Bilang 72*, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the *Batasang Pambansa*, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into *Batas Pambansa Bilang 72* on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I -- POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesorias, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. Single house – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. Duplex – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. Apartment/accesoria/condominium/row house

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. Improvised (barong-barong) – a makeshift or roughly constructed house usually built with salvaged materials.
5. Commercial/industrial/agricultural – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. Other housing unit (natural shelter, boat, etc.)

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. Hotel, lodging house, dormitory, etc. – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. Institutional (hospital/convent/school dormitory/penal institution, etc.) – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. Other collective living quarters – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

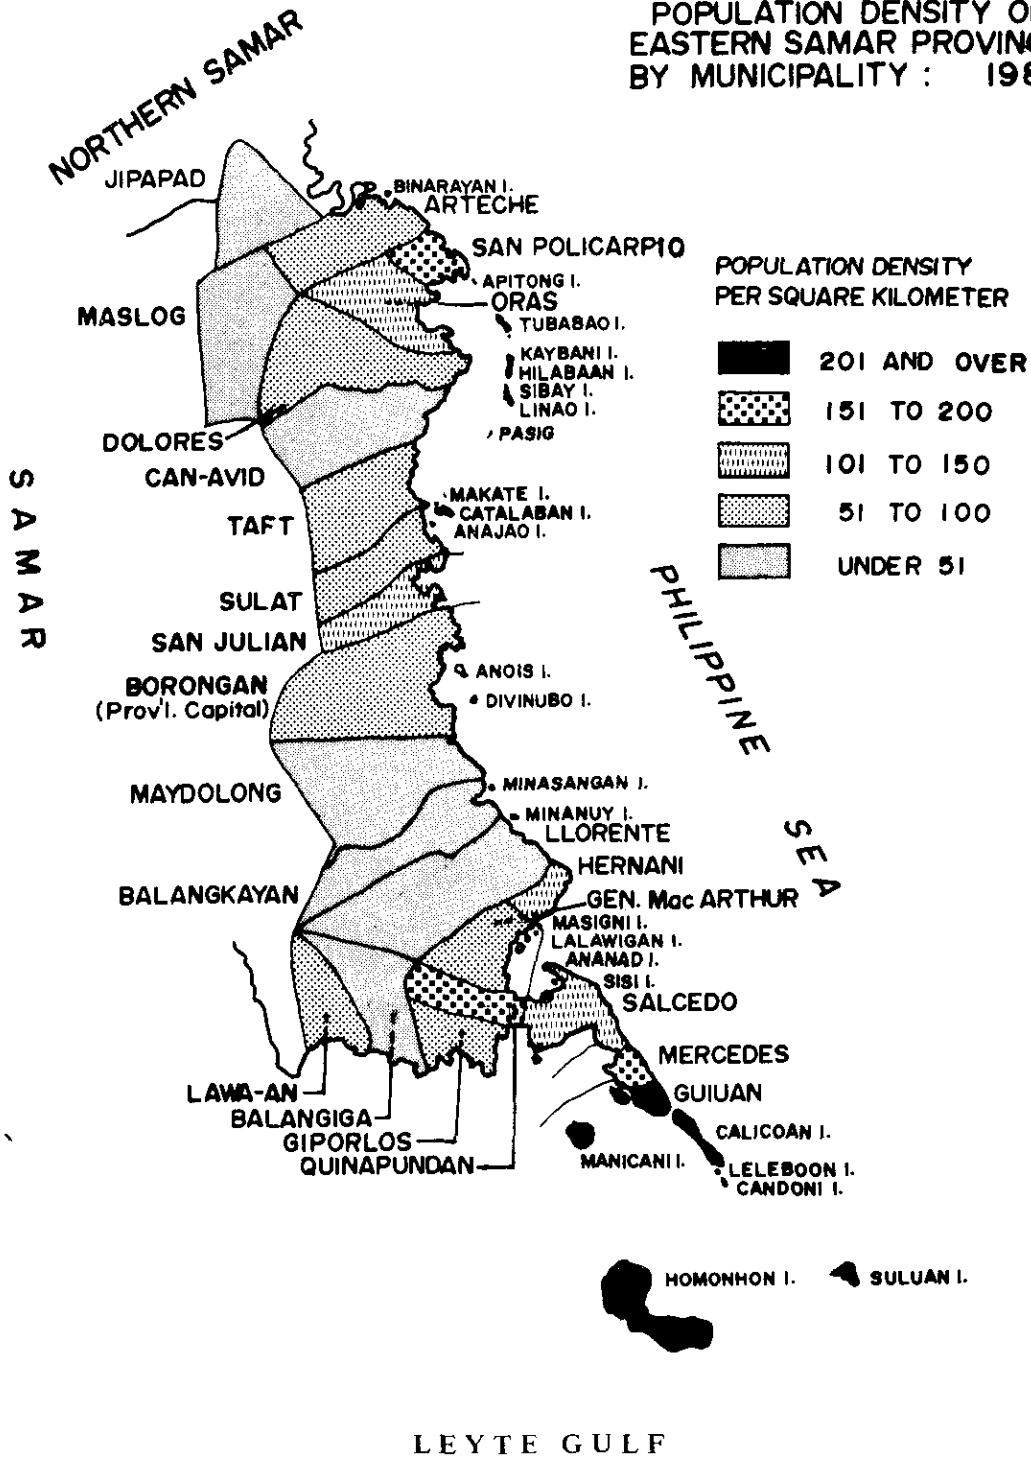

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY OF
EASTERN SAMAR PROVINCE
BY MUNICIPALITY : 1980

Eastern Samar: A Brief Analysis

Eastern Samar is located on the eastern portion of Samar island. It is bounded by the Philippine Sea on the east, the province of Northern Samar on the north, Samar on the west and the Leyte Gulf on the south. The second largest of the three sister provinces, Eastern Samar has a total land area of 4,339.6 square kilometers which is 1.45 percent of the total Philippine area.

The entire eastern coast is exposed to heavy rainfall and frequent typhoons especially during the months of October to December. The province has a rugged terrain, consisting mostly of low mountain ranges in the interior, hence nearly all of its municipalities are found along the coast. Its level lands are located on deltas and valleys of the Ulut, Dolores and Ores rivers.

Eastern Samar was created on June 19, 1965 under Republic Act No. 4221 which divided the island of Samar into three administrative provinces. Borongan, the provincial capital, and 22 other municipalities compose Eastern Samar.

POPULATION

The population of Eastern Samar as of May 1, 1980 was 320,637 of which 163,980 were males and 156,657 were females. The population figure indicated an annual geometric growth rate of 2.23 percent, 1.06 percentage points higher than the 1970-1975 rate of 1.17 percent. Consequently, its population density moved up from 66.2 persons per square kilometer in 1975 to 73.9 in 1980, an increase of 7.7 persons per square kilometer over a five-year period.

The acceleration of the latest population growth was due to the increasing growth rate in both the urban and the rural areas (from 1.25% in 1970-1975 to 3.47% in 1975-1980 for the urban and from 1.14% to 1.81% for the rural areas). Although the urban population is on the upward trend (24.57% in 1970, 24.67% in 1975 and 26.20% in 1980), the province is still predominantly rural with almost three-fourths (73.80%) of the total population residing in the rural areas.

Table A gives the urban-rural and sex distribution of the population for three censal years.

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
EASTERN SAMAR: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>320,637</u>	<u>100.00</u>	<u>287,149</u>	<u>100.00</u>	<u>271,000</u>	<u>100.00</u>
Male	163,980	51.14	147,486	51.36	137,191	50.62
Female	156,657	48.86	139,663	48.64	133,809	49.38
Urban	<u>84,020</u>	<u>26.20</u>	<u>70,840</u>	<u>24.67</u>	<u>66,585</u>	<u>24.57</u>
Male	42,420	13.23	35,522	12.37	32,929	12.15
Female	41,600	12.97	35,318	12.30	33,656	12.42
Rural	<u>236,617</u>	<u>73.80</u>	<u>216,309</u>	<u>75.33</u>	<u>204,415</u>	<u>75.43</u>
Male	121,560	37.91	111,964	38.99	104,262	38.47
Female	115,057	35.89	104,345	36.34	100,153	36.96

The sex ratio (number of males per 100 females) dropped from 105.60 to 104.67, the males still retaining their predominance over females. The urban sex ratio went up by 1.39 to 101.97 while the rural sex ratio decreased from 107.30 to 105.65.

Figure 1 shows the 1980 proportions of males and females to the total population, urban and rural, in five- year age groups. Both the urban males and females and the rural males show disagreements to the pyramid configuration. Only the rural females exhibit a declining proportion as each age group becomes older. Urban males aged 5-9 are outnumbered by those 10-14 years of age. On the other hand, urban females aged 5-9 outnumber those below 5 years of age while those aged 10-14 exceed the younger age groups. Likewise rural males, below 5 years old are outnumbered by those aged 5-9 and those 30-34 years old, by those aged 35-39. (Table 2).

AGE COMPOSITION

The province still has a high proportion of the younger age group (0-14 years), although a downward trend has been observed since 1970. The youth population constitute 43.30 percent of the provincial total, a decrease of 1.42 percentage points between 1975 and 1980 and a decrease of 3.34 percentage points since 1970. In contrast, the proportion of persons 15-64 years old, considered as the productive age group, follows an upward trend. After rising 1.91 percentage points between 1970 and 1975, it rose 0.77 percentage point to 52.24 percent. The older age group (65 years old and over) accounts for 4.46 percent, a little higher compared with 3.81 percent and 3.80 percent, respectively, for 1975 and 1970.

The accompanying table shows the broad age structure of the population in three censal years:

A BRIEF ANALYSIS

**TABLE B – AGE COMPOSITION OF THE POPULATION,
EASTERN SAMAR: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>320,637</u>	<u>100.00</u>	<u>287,149</u>	<u>100.00</u>	<u>271,000</u>	<u>100.00</u>
0-14 years	138,843	43.30	128,425	44.72	126,383	46.64
15-64 years	167,510	52.24	147,788	51.47	134,310	49.56
65 years and over	14,284	4.46	10,936	3.81	10,307	3.80

**FIG. 1 – AGE-SEX COMPOSITION OF THE POPULATION,
URBAN-RURAL, EASTERN SAMAR: 1980**

A BRIEF ANALYSIS

The median age of the population is 17 years; that is, half of the population are below 17 years old and the other half, above this age. The median age in 1975 was also 17 years while in 1970 it was 16 years.

With an increased percentage in the productive or working ages (15-64 years), the dependency ratio dropped to 91.41 from the 1975 ratio of 94.30, lower by 2.89 dependents for every 100 persons in the productive age bracket. Rural dependency ratio (92.89) was higher than the urban ratio (87.38). Of the total urban population, 41.07 percent were below 15 years old; 53.37 percent belonged to the productive age group and 5.56 percent were 65 years old and over. Comparatively, 44.10 percent of the rural residents were 0-14 years of age; 51.84 percent, 15-64 years old and 4.06 percent, 65 years old and over.

MARITAL STATUS

Since 1970 the proportion of married persons has consistently exceeded those of the other marital status categories. Slightly increasing by 0.78 percentage point, married individuals comprised 50.78 percent of the total population 10 years old and over. The proportion of never married persons, on the other hand, decreased by 1.34 percentage points, from 45.86 percent in 1975 to 44.52 percent in 1980. Slight increases were also

FIG. 2 – MARITAL STATUS OF THE POPULATION 10 YEARS OLD AND OVER BY SEX, EASTERN SAMAR: 1980

A BRIEF ANALYSIS

noted for the widowed (from 3.74% to 4.14% in 1980), divorced or separated (from 0.37% to 0.52%) and those in the not stated category (0.03% to 0.04%). Among the rural dwellers, married individuals aggregated 51.83 percent compared with 47.92 percent for their urban counterparts. Never married persons constituted 43.52 percent of the rural population, lower than the urban proportion (47.22%).

Less than one half (47.60%) of the males 10 years old and over were never married, 1.33 percentage points lower than in 1975. Increasing by 1.07 percentage points, married males totalled 49.40 percent. Both widowed and divorced or separated males increased their proportions to 2.47 percent and 0.50 percent, respectively. Among the females, 41.27 percent were never married, a decrease of 1.34 percentage points in five years. Meanwhile, the proportion of married females increased from 51.77 percent in 1975 to 52.23 percent. Those widowed, likewise, increased to 5.91 percent and those divorced or separated, to 0.54 percent. For those who did not reveal their status, the females (0.05%) slightly outnumbered the males (0.03%).

Shown below is the classification of the population 10 years old and over by sex and marital status:

**TABLE C – POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS, EASTERN SAMAR:
1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

Persons with elementary training were still ahead in number than those in other categories although the proportion dropped from 67.26 percent in 1975 to 63.77 percent of the total private household population 7 years old and over. Those who reached the secondary level increased by 3.39 percentage points to 19.33 percent. Persons who attained a college education and were still undergraduates composed 4.78 percent, 1.59 percentage points higher than in 1975. Increasing slightly by 0.68 percentage point, academic degree holders totalled 2.72 percent. The proportion of persons who had no formal education (9.10%) as well as those who did not state their educational attainment (0.30%) dropped, respectively, by 1.30 and 0.87 percentage points.

Of those who had elementary training, one-third (33.62%) graduated from the sixth or seventh grade; 34.08 percent did not go beyond the third grade; 17.33 percent completed the fourth grade and 14.97 percent, the fifth grade. Among those with secondary education, 72.77 percent reached anywhere from first year to third year while only 27.23 percent completed the fourth year. More than three-fourths (77.02%) of the college undergraduates finished the lower collegiate years (first to third year) while 22.98 percent completed the fourth year or higher (Table 5).

FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, EASTERN SAMAR: 1980

A BRIEF ANALYSIS

The distribution of the private household population 7 years old and over by highest grade completed in the last two censal years is shown in the following table:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, EASTERN SAMAR: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>253,413</u>	<u>100.00</u>	<u>225,155</u>	<u>100.00</u>
No grade completed	23,053	9.10	23,408	10.40
Elementary	161,604	63.77	151,447	67.26
High school	48,973	19.33	35,877	15.94
College	12,126	4.78	7,190	3.19
Academic degree holder	6,899	2.72	4,597	2.04
Not stated	758	0.30	2,636	1.17

**FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION
10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, EASTERN SAMAR: 1980**

A BRIEF ANALYSIS

LITERACY

For all private household population 10 years old and over, the literacy rate was 81.77 percent, higher by 0.57 percentage point than the 1970 rate. Urban literates (88.12%) were higher in proportion than their rural counterparts (79.42%). (See Fig. 4.)

The females had a higher literacy rate of 83.46 percent compared with the males' 80.16 percent. In both urban and rural areas, the females registered higher rates than the males – 89.07 percent and 81.31 percent for the urban and rural females, respectively, compared to 87.17 percent and 77.66 percent, respectively, for the males (Table 6).

LANGUAGE OR DIALECT

Practically all (99.34%) of the 55,896 private households in Eastern Samar speak Lineyte-Samarnon (Waray). Both urban and rural areas are predominated by Lineyte-Samarnon speaking households, 99.03 percent and 99.45 percent, respectively. Tagalog is spoken by 0.28 percent; Cebuano, 0.22 percent; Ilocano, 0.02 percent and Kangkanai, 0.02 percent. The rest of the households (0.12%) speak one of several other languages and dialects reported for the province (Table 7).

GAINFUL OCCUPATION

Of the private household population 15 years old and over, 86,668 or 47.87 percent are gainful workers. Gainful employment is heavily dominated by males (84.23%); only 15.77 percent are females.

A BRIEF ANALYSIS

Agricultural, animal husbandry and forestry workers compose the biggest group at 73.52 percent, 3.10 percentage points lower than in 1975. Production and related workers, transport equipment operators and laborers remain second, although the proportion of this occupation group is on the downward trend from 8.50 percent in 1975 to 7.61 percent in 1980. Third in rank are the professional, technical and related workers. From 4.92 percent in 1975, the proportion went up to 6.13 percent. Service workers gained 1.86 percentage points and retain their hold of fourth place with 5.74 percent. Sales workers slightly declined to 2.93 percent while clerical and related workers rose to 2.09 percent. At merely 0.21 percent, administrative, executive and managerial workers constitute the smallest occupation group. Workers with unclassifiable occupation increased from 0.44 percent to 1.77 percent (Table 8).

Shown in the table below is the distribution of gainful workers 15 years old and over by major occupation group:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, EASTERN SAMAR:
1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>86,668</u>	<u>100.00</u>	<u>77,496</u>	<u>100.00</u>
Professional, technical and related workers	5,314	6.13	3,809	4.92
Administrative, executive and managerial workers	183	0.21	272	0.35
Clerical and related workers	1,811	2.09	1,166	1.50
Sales workers	2,535	2.93	2,937	3.79
Service workers	4,976	5.74	3,004	3.88
Agricultural, animal husbandry and forestry workers, fishermen and hunters	63,716	73.52	59,379	76.62
Production and related workers, transport equipment operators and laborers	6,596	7.61	6,587	8.50
Workers not classifiable by occupation	1,537	1.77	342	0.44

INDUSTRY

Agriculture, fishery and forestry, the dominant industry group in Eastern Samar, provide work to three-fourths (75.10%) of the total gainful workers 15 years old and over. Agricultural crop producers chiefly compose this group (84.26%), followed by fishery workers (14.07%). Community, social and personal services, comprising 13.28 percent, rank

A BRIEF ANALYSIS

as the next biggest employer. The three leading sources of jobs in this group are personal and household services (35.60%), education services (35.66%), and public administration and defense (16.57%). Wholesale and retail trade, the third ranking industry group, employs 2.99 percent of the gainful workers. Manufacturing is engaged in by 2.71 percent; construction, 2.22 percent; transportation, storage and communication, 2.01 percent; financing, insurance, real estate and business services, 0.96 percent; mining and quarrying, 0.30 percent; electricity, gas and water, 0.06 percent and activities not adequately defined, 0.37 percent (Table 9).

MIGRATION

A large majority of the private household population 5 years old and over (97.22%) resided in the same municipality where they had lived on May 1, 1975. Of the 7,565 persons who had a different place of residence on May 1, 1975, 4,684 or 1.72 percent of all persons 5 years old and over lived in another municipality of this province and barely (0.96%), in another province. Residents of a foreign country comprised only 0.10 percent. In all three migratory movements, there were more males than females (Table 10).

A BRIEF ANALYSIS

TYPE OF BUILDING

Majority (97.21%) of the 55,896 households in Eastern Samar occupy single houses. The rest live either in duplex (1.25%), apartment/accesoria/condominium/row house, etc. (0.06%), improvised structures such as barong-barong (1.24%), commercial/industrial/agricultural building (0.12%), hotel/lodging house/dormitory (0.02%), institutional buildings like hospital, convent, school dormitory, (0.02%) or other collective living quarters (0.08%).

Most of the households living in single houses are in the rural areas (75.14%); about one-fourth (24.86%) are in the urban areas. Of those residing in duplex structures, more than one-half (52.58%) are rural and 47.42 percent, urban dwellers. Households living in commercial/industrial/agricultural buildings and in hotels, lodging houses, dormitories, etc. are entirely located in urban areas. However, the proportions of households living in improvised structures and in collective living quarters are higher for rural (69.84% and 89.13%, respectively) than urban areas (30.16% and 10.87%, respectively). Likewise, a greater proportion of households living in institutional buildings are in the rural areas (rural – 55.56%; urban – 44.44%).

Housing conditions in the province have considerably improved during the past decade. In 1970, majority or 80.24 percent of the 47,028 households live in single houses and 18.49 percent in improvised structures. After ten years, occupants of single houses increased by 16.97 percentage points while the proportion of households in improvised structures decreased by 17.25 percentage points (Table 1).

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, EASTERN SAMAR: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>55,896</u>	<u>100.00</u>	<u>47,028</u>	<u>100.00</u>
Single house	54,335	97.21	37,737	80.24
Duplex	698	1.25	440	0.94
Apartment/accesoria/condominium/ row house/etc.	32	0.06	80	0.17

Commercial/industrial/agricul- tural	69	0.12	75	0.16
Other housing unit: natural shelter, boat, etc.	—	—	—	—
Hotel, lodging house, dormitory, etc.	14	0.02	—	—
Institutional (hospital, convent, school dormitory, etc.)	9	0.02	1	0.00
Other collective living quarters (military camps, etc.)	46	0.08	2	0.00

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Of the total households in Eastern Samar, 91.01 percent are owners of the dwelling units they occupy. The rest of the households are either tenants/lessees (3.37%), sub-tenants/sublessees (0.25%) or rent-free occupants (5.37%).

In the urban areas, 87.33 percent are owners of their dwelling units. The remaining 12.67 percent are distributed as follows: 4.07 percent, tenant/lessee; 0.58 percent, sub-tenant/sublessee and 8.02 percent, rent-free occupant. The corresponding figures for the rural areas are 92.26 percent, 3.13 percent, 0.14 percent and 4.47 percent (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Most of the households (66.90%) in the province occupy dwelling units constructed with roofs of cogon or nipa and 28.55 percent, of galvanized iron. Households in dwelling units with roof of other materials such as anahaw constitute only 3.65 percent. Very few households occupy units roofed with tile/concrete/brick/stone and asbestos (0.46%) or with makeshift/salvaged materials (0.44%). Households residing in units roofed with cogon or nipa predominate in both the urban (58.65%) and rural (69.70%) areas. Those in units with roof of galvanized iron constitute 39.65 percent of the urban and 24.78 percent of the rural households.

By type of construction materials of outer walls, 58.19 percent of the households occupy dwelling units built with walls of cogon or nipa and 26.67 percent, of wood or plywood. Households in units built with walls of mixed tile, concrete, brick, stone and wood or plywood make up 6.82 percent; of bamboo or sawali, 2.95 percent; of other materials such as anahaw, 2.77 percent and tile, concrete, brick or stone, 1.22 percent. The least number of households reside in units built with walls of makeshift or salvaged materials (0.72%), of galvanized iron or aluminum (0.60%) and of asbestos (0.06%). In the urban areas, more than one-half (50.96%) of the households dwell in units with walls of cogon or nipa; 32.28 percent, of wood or plywood and 11.99 percent, of mixed tile, concrete, brick, stone and wood or plywood. Three fifths (60.65%) of the rural households occupy dwelling units with walls of cogon or nipa and nearly one-fourth (24.77%), of wood or plywood. Compared to the urban households, a smaller proportion of the rural households live in units constructed with walls of mixed tile, concrete, brick, stone and wood or plywood (5.07%). However, 3.63 percent reside in units with walls of other materials and 3.42 percent, of bamboo or sawali (Table 2).

YEAR BUILT

Two-fifths or 40.08 percent of the total households are occupants of structures constructed between 1976-1980; 20.77 percent, during 1971-1975; 19.74 percent, 1961-1970 and 12.08 percent, 1951-1960. Few households (4.46%) live in buildings erected during 1942-1950 and 2.87 percent, before World War II (Table 2).

FLOOR AREA OF DWELLING UNIT

More than one-half (52.70%) of the total households occupy dwelling units with floor area less than 30 square meters; 33.14 percent live in 30-49 square-meter dwelling units; 7.30 percent, in units 50-69 square meters and 3.31 percent, 70-99 square meters. Only 1.76 percent have spacious dwelling units of 100-149 square meters and 1.79 percent, from 150 square meters and over (Table 3).

A BRIEF ANALYSIS

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Most of the 50,872 households (88.15%) that own their dwelling units also own the land where the structure is erected. The rest are distributed as follows: 2.92 percent, lessee or sublessee; 2.48 percent, farm lessee or agricultural tenant of landowner; 1.44 percent, other legal tenure and 5.01 percent, no tenure such as squatter, etc. (Table 4).

SOURCE AND USE OF WATER SUPPLY

Of the total number of households in the province, 31.17 percent and 28.60 percent utilize tubed or piped deep well as their primary source of water for drinking and kitchen use, respectively. Other sources of drinking water are spring (21.14%), faucet, community water system (17.47%), dug well (14.94%), tubed or piped shallow well (12.51%), lake, river, stream, etc. (2.68%) and rain (0.09%). For kitchen use, 20.10 percent depend on dug well; 17.65 percent, spring; 15.69 percent, faucet, community water system; 12.62 percent, tubed or piped shallow well; 5.22 percent, lake, river, stream, etc. and 0.12 percent, rain. Next to the dug well (23.91%), the most common sources of water supply for washing clothes are lake, river, stream, etc. (23.67%) and tubed or piped deep well (18.17%). The rest depend on spring (13.91%), faucet, community water system (11.10%) and tubed or piped shallow well (9.06%). Only 99 households or 0.18 percent use rain water for laundering clothes (Table 6).

KIND OF LIGHTING FACILITIES

Kerosene is the most widely used type of lighting facility in Eastern Samar. An aggregate of 89.34 percent of the total number of households are using kerosene. The remaining 10.66 percent are using either liquefied petroleum gas (6.59%), electricity (3.41%), oil (0.06%) or other kinds of lighting facilities (0.60%). A greater proportion of the rural households (90.96%) utilize kerosene compared to the urban households (84.58%). While more urban (8.92%) than rural households (1.54%) use electricity, a higher proportion of the rural (6.94%) than the urban dwellers (5.54%) use liquefied petroleum gas (Table 5).

COOKING FUEL

Wood or charcoal is still the most commonly used cooking fuel in the province. More than nine-tenths or 90.78 percent of the total households use wood or charcoal for cooking. Kerosene is used by 7.11 percent; liquefied petroleum gas, 1.58 percent; electricity, 0.06 percent and other kinds of cooking fuel, 0.47 percent. In both urban and rural areas, the predominant use of wood or charcoal is observed (90.94% of the total urban households and 90.72% of the total rural households). Kerosene users comprise 5.22 percent in urban and 7.75 percent in rural areas while users of liquefied petroleum gas constitute 3.46 percent and 0.94 percent, respectively (Table 8).

TOILET FACILITIES

Two types of toilet facilities commonly used by households are the water-sealed with sewer or septic tank (25.33%) and the water-sealed with other depository (21.87%). A little over one-tenth of the total households (10.95%) use the open pit; 3.14 percent, closed pit (antipolo, etc.) and 2.98 percent, other (pail system, etc.). Sanitation is still a problem in Eastern Samar with a high proportion (35.73%) of the total households having no toilet facilities.

A BRIEF ANALYSIS

Urban households have better toilet facilities than their rural counterparts. More than two-fifths (41.66%) of the urban households use water-sealed with sewer or septic tank; 27.86 percent, water-sealed with other depository; 7.42 percent, open pit; 3.08 percent, closed pit and 2.17 percent, other. However, 17.81 percent have no toilet facilities. Among the rural dwellers, 19.78 percent use water-sealed with sewer or septic tank; 19.83 percent, water-sealed with other depository; 12.15 percent, open pit; 3.17 percent, closed pit and 3.25 percent, other. A large proportion of the rural households (41.82%) lack toilet facilities (Table 7).

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

More than one-third (35.83%) of the households in Eastern Samar have radios; 0.21 percent own television sets and 1.79 percent, refrigerators or freezers. Of the urban households, 43.66 percent own radios; 0.43 percent have television sets and 4.26 percent, refrigerators or freezers. Among the rural households 33.18 percent have radios; 0.13 percent, television sets; and 0.95 percent, refrigerators or freezers (Table 9).

NOTE:

Except for total population by sex, data for Arteche, Eastern Samar are estimates based on characteristics of adjacent municipalities. PH Form Nos. 2 and 3 were lost at sea during typhoon Gloring on May 24, 1980.

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)
Title _____
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives of UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS: PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
